Finitura Habitat

Habitat finishes

Habitat è una finitura della superficie che viene realizzata sulle tavole di Teak, Rovere, Termo Rovere, Iroko, Noce Americano, Olmo e Noce Nazionale per garantire un effetto completamente naturale ed opaco. Habitat è la linea di pavimenti in legno che preserva ed esalta la naturale matericità del legno, grazie ad una lavorazione che rende le tavole totalmente mat. La finitura è caratterizzata da un trattamento di verniciatura a ciclo completo all'acqua, nel quale viene utilizzato un particolare fondo che crea una barriera che rallenta la naturale ossidazione del legno. Il parquet finito, quindi, non presenta alcuna lucidità. Alla vista il pavimento è naturale: le tonalità e le caratteristiche delle specie legnose non vengono alterate dalla finitura. Al tatto, poi, la superficie è morbida e piacevole: camminare a piedi nudi su un pavimento della linea Habitat è un vero piacere sensoriale che accompagna il nostro benessere quotidiano. Adatto a qualsiasi ambiente grazie alla sua alta resistenza al calpestio.

Habitat is a surface finish that is made on Teak, Oak, Termo Rovere, Iroko, American Walnut, Elm and National Walnut boards to guarantee a completely natural and opaque effect. Habitat is the line of wooden floors that preserves and enhances the natural texture of the wood, thanks to a process that makes the boards totally mat. The finish is characterized by a complete water-based painting treatment, in which a particular base is used which creates a barrier to the tannin of the wood and slows down the natural oxidation of the wood. The finished parquet, therefore, does not present any lucidity. The floor is natural to the eye: the shades and characteristics of the wood species are not altered by the finish. To the touch, then, the surface is soft and pleasant: walking barefoot on a floor of the Habitat line is a real sensorial pleasure that accompanies our daily well-being. Suitable for any environment thanks to its high resistance to foot traffic.

Finiture della superficie

Surface finishes

Non verniciato

Unvarnished

NON VERNICIATO UNVARNISHED - COD. NV

Verniciatura all'acqua

La verniciatura a ciclo completo all'acqua è ideale per la bioedilizia in quanto garantisce l'assenza totale di emissioni di sostanze tossiche. I suoi 120 gr/mq di residuo secco di vernice e l'aggiunta di micro particelle cerose rendono la superficie resistente e morbida al tatto. La finitura può essere effetto cera o extra lucida Gloss®.

Water based varnish

Completely water based varnish, which is ideal for bio-building, grants a total absence of harmful emissions. A 120gr/sqm of dried varnish residual and the adding of waxy micro-particles make the surface resistant and smooth. The finish can be matt (wax effect) or glossy extra-shining (Gloss® line).

VERNICIATURA ALL'ACQUA EFFETTO CERA WATER WAX EFFECT VARNISH - COD. V2

Finitura ad olio

La nuova finitura ad olio naturale è caratterizzata da un olio di ultima generazione, adatto alla bioedilizia perché ecologico e privo di sostanze nocive. È un olio vegetale naturale che nutre, protegge e preserva la superficie del legno.

Oil finish

The new natural oil finish is characterized by an innovative oil, suitable for bio-building because it is totally free from noxious substances. It is a natural oil that nourishes, protects and preserves the wood surface.

OLIATURA OILED - COD. O2

Verniciatura all'acqua effetto GLOSS®

Finitura igienizzante ad azione antibatterica.

Silver Defence è la finitura della superficie che elimina il 99% dei batteri rendendo i prodotti Garbelotto sicuri senza alterarne in alcun modo le caratteristiche. Ideale per ambienti ad alti standard igienici come studi medici, ristoranti, negozi, centri benessere, saune senza dimenticare gli ambienti domestici, dal living alle camere per bambini, ai bagni. Semplicemente adatto a qualsiasi ambiente pubblico e privato. La durata della finitura igienizzante è pressoché infinita, si esaurirà una volta che il pavimento si sarà completamente consumato.

Sanitizing finish with antibacterial action.

Silver Defence is the surface finish that eliminates 99% of bacteria making Garbelotto products safe without altering their characteristics in any way. Ideal for environments with high hygienic standards such as medical offices, restaurants, shops, wellness centres, saunas without forgetting domestic environments, from the living room to the children's rooms, to the bathrooms. Simply suitable for any public and private environment. The duration of the antibacterial sanitizing finish is almost infinite, it will run out once your floor is completely worn out.

Watch the video of the correct cleaning, maintenance and sanitation of parquet

Vernice ignifuga

Le vernici ignifughe sono vernici formulate con componenti che, a film essiccato, rallentano la propagazione della fiamma e sono un indispensabile strumento di prevenzione degli incendi. Garbelotto può fornire pavimenti verniciati ignifughi su tutta la gamma prodotti, per soddisfare particolari richieste di utilizzo in opere pubbliche quali scuole, teatri, hotel, locali/bar, ecc..., senza tralasciare la qualità della finitura.

Con supplemento a preventivo.

Fire-resistant varnish

Fire-resistant varnishes are made with components that slow down the propagation of the flame and they are an essential instrument of prevention of fires. Garbelotto can provide fire-resistant parquet for the whole product range, to satisfy their use in public areas as schools, theaters, hotels, bars etc... but always paying attention to the quality of the finish.

Surcharge to quote.

PIALLATURA A MANO HAND-MADE PLANED - COD. PA

Effetto irregolare discontinuo.
Pregiata lavorazione, ottenuta manualmente da abili maestri
ebanisti tavola per tavola.

Discontinuous irregular effect.
A fine working, obtained manually from creative ebonists who
work board by board.

Trama

TRAMA TRAMA - COD. TR

Treatment that confers a materic aspect to the surface reproducing the thick fabric texture.

Treatment that adds a special effect to the surface, reproducing the thick fabric texture.

Taglio sega / Sawn effect

TAGLIO SEGA SAWN EFFECT - COD. TS

Treatment of transversal cuts that reproduces the sawing of a board.

Treatment made of transversal cuts on the boards as in former times.

Prodotti artigianali - caratteristiche

The floors with particular surface treatments and ancient woods, present the typical appearance characteristics of craftsmanship or of the type of product. The differences that are found between element and element even within it (color shading, flatness and roughness of the surface) do not represent a defect but constitute the peculiarity and an added value of the craftsmanship of the product. Some surface treatments carried out on some products generate roughness, roughness and small chips that can act as a grip for the rags used in cleaning operations. All of the above constitutes an element of evaluation to pay particular attention to when the floor is intended to be used without wearing footwear.

Componi il tuo pavimento personalizzato

Create your own custom floor

Il Parchettificio Garbelotto offre infinite possibilità di personalizzazione ed è attrezzato per eseguire lavori customizzati, incontrare e soddisfare le esigenze dei clienti, eseguire ogni tipo di geometria di posa, finiture della superficie e consigliare il giusto colore, partendo dalla materia prima certificata proveniente da zone con riforestazione controllata. L'azienda è sempre attenta alle nuove influenze provenienti dal mondo della moda e dell'interior design collaborando con architetti internazionali e archistar, realizzando prodotti 100% Made in Italy firmati artigianalmente da maestri ebanisti. L'unico pavimento personalizzabile e naturale non può che essere il legno il quale ci permette di realizzare un parquet dall'aspetto unico e originale. I pavimenti Garbelotto sono adatti alle residenze private, agli uffici, all'hotellerie, ai negozi, alle strutture pubbliche, ai teatri o a qualsiasi altro ambiente sia interno che esterno dove il legno possa essere protagonista di una storia, la vostra.

The Parchettificio Garbelotto offers infinite possibilities for customization and is equipped to perform customized works, meet and satisfy customer needs, perform any type of laying geometry, surface finishes and recommend the right colour, starting from the certified raw material from areas with controlled reforestation. The company is always attentive to new influences from the world of fashion and interior design by collaborating with international architects and archistar, creating 100% Made in Italy products handcrafted by master cabinetmakers. The only customizable and natural floor can only be wood which allows us to create a parquet with a unique and original appearance. Garbelotto floors are suitable for private residences, offices, hotels, shops, public structures, theatres or any other internal or external environment where wood can be the protagonist of a story, yours.
